Rev. J. E. Brittain, pastor. Sabbath preaching services at 3:15 P. M.; Sunday-school at 2:00 P. M.; prayer-meeting, Wednesday at 8 P. M.

Complimentary to Dr. Woodruff.
TO THE EDITOR OF THE CITIZEN:
Six: The following is a copy of a clipping from the Newark Evening News of February 27:

"A petition, which is being freely signed by members of the Park Methodist Church, will be presented to the Bishop of the Newark Methodist Conference, which meets in Jersey City in April, to return Rev. Dr. Charles S. Woodruff to the pastorate of the church for another year."

The writer is pleased to learn that the press has taken note of the fact that the members of the Park M. E. Church of this town are awake to the situation, and are being forewarned, fearing that some other church will secure the services of their loved and honored pastor, after the annual Church Conference, which meets in April, and at which time pastors are appointed to the different churches for the following year. It certainly is a wise act on the part of the members of the Park Church to circulate this petition, showing, as it will, by the many signatures it is receiving, that its members are awake to the fact that they have in their pastor a man of most excellent worth, and one that they have a right to be proud of. Seldom is there found in a pulpit a man who has as many excellent qualities as has the pastor referred to.

As a sermonizer he is not surpassed in the State; he is a great student, a deep thinker, and as a pastor as well as a preacher beloved not only by his people, but by all who know him, and if a petition should be freely circulated through the town it would, without doubt, receive the support of almost every citizen to whom it was presented. Bloomfield cannot afford to lose Dr. Woodruff, and both the Presiding Elder and the Bishop should be informed of the fact, that not only would the Park M. E. Church suffer what the writer considers an irreparable loss, but the town would lose one who has its interests at heart, and a leader in every movement that tends toward the uplifting of mankind.

Let every church member and every citizen lift up his or her voice against the M. E. Conference permitting any other church to take from the Park M. E. Church of Bloomfield its present pastor. It is to be hoped that the readers of your valued paper will, for the good of the church and the town of Bloomfield, do their best to urge the Newark Conference to take such steps as will be necessary to avoid any such loss as would be caused by permitting any such change to be made. A CITIZEN.

Lackawanna Railroad Plans.
The Lackawanna Railroad Company gave formal notice to the East Orange City Council on Monday night that it was ready to take up the question of track elevation with the Council. The matter was referred to the committee on sidewalks.

It is anticipated that similar notice will be given to the Town Council of this town shortly.

The Other Side of Things - "The Blot"

The Creator saw fit to give man the power to look on the bright side of things, and to keep in mind that on the other side of the blackest cloud the sun shines undimmed. He also gave the power to look at the dark side of things and to ignore the fact that the great life-giving sun is shining on into all space except the little shadow of the cloud, and that the cloud itself has its own glorious sunny side.

Benighted, poverty-stricken souls are they who see only the dark side of things. At least it seems that way to those of us who can see only the bright side. I have studied these pitiful "blue-devils" very seriously in my time, and I have come to the conclusion that they find their greatest comfort in their bluest hours.

It has been said that "an Englishman is never happy unless he is miserable," and I have come to believe that the same sort of happiness has fallen to the lot of many who were born on this side of the big pond. I have tried taking them "by the nap of the neck and the seat of the trousers," as it were, and lifting them bodily out of their "slough of despond," and putting them up on a bright sunny hilltop with beautiful scenery in full view, and the balmy breeze wafting health and comfort in every breath, but it only gave them distress. They were like a fish on land—wholly out of their element. Their discomfort was evident at every turn. So uneasy at nothing to find fault with, and just as soon as possible they hurried back into their "slough of despond," and gathering the alms of fault-finding about them anew, seemed to revel in the delight of a joyous home-coming.

I am thoroughly unable to understand what benefit they are to the world unless it be to keep genuine optimists from going to excess. Otherwise I class them with mosquitoes, centipedes, saloons, gambling dens and other things that I cannot find use for. Meantime, I am learning to let them alone, so far as trying to show them the bright side of things is concerned, and I even find a little enjoyment in observing how happy they are in their fault-finding, and how superior they consider themselves to those people who (as they look at it) have not the ability to find fault.

They certainly have one advantage over us optimists, for we are sometimes provided into dark corners in spite of our optimism, while they are forever happy in their fault-finding, unless now and then for a minute we try to drag them out of their misery.

F. W. HAWES.

Honors for a Bloomfield Pupil.

Following the lead of Collier's Weekly the New York Tribune offered recently a series of money prizes for the best original story to be completed for pupils of normal colleges and high schools throughout the country. It is gratifying to note that among such educational institutions as the New York State Normal College, Erasmus Hall, Wadleigh School, Horace Mann School, Plainfield High School, and others of a similar character, a pupil of the Bloomfield High School, Miss Gladys M. Smith, was a successful competitor. All the prize stories will be published in turn in the Sunday edition of the Tribune.

1100 Howard, 1100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh, being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio.
Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.

"Phone Saved His Life."

PHILADELPHIA, February 14.—Seized with acute ptomaine poisoning, which caused his heart to beat at the dangerous velocity of 200 pulsations a minute, Arthur Emilen Newbold, banker, and member of the firm of Dexel & Co., was awakened by excruciating pains while in bed early last Sunday morning at his home, 300 Spruce street, and narrowly escaped death. Too weak to arouse the servants, who were the only persons in the house, or to strike a light, Mr. Newbold might have died alone in the darkness but for the fact that there was a telephone at the side of his bed. He groped for this and succeeded in ringing up the house of a physician. But he received no response. Two other physicians failed to reply. Finally Mr. Newbold succeeded in getting into communication with Dr. Redcliffe Cheeston of Chestnut Hill, who promised to get into town as soon as possible. In the meantime, however, Dr. Cheeston telephoned to another physician living nearer Mr. Newbold's home, who immediately went to the sick man's assistance.

When he rang the doorbell Mr. Newbold heard him, but the servants did not, and more time was lost. Finally he was let in, and, with the assistance of Dr. Cheeston, who arrived shortly afterward, succeeded in relieving Mr. Newbold. The patient was not out of danger for several hours, but is now recovering.—N. Y. Sun.

LIKE FINDING MONEY.

W. W. Keyler Offers Popular Medicine at Half-Price.

W. W. Keyler, the popular druggist, is making an offer that is just like finding money, for he is selling a regular 50 cent bottle of Dr. Howard's celebrated specific for the cure of constipation and dyspepsia at half-price. In addition to this large discount he agrees to return the money to any purchaser whom the specific does not cure. It is quite unusual to be able to buy fifty-cent pieces for a quarter, but that is what this offer really means, for it is only recently through the solicitation of Druggist W. W. Keyler that this medicine could be bought for less than fifty cents, he urged the proprietors to allow him to sell it at this reduced price for a little while, agreeing to sell a certain amount. The result has justified his good judgment, for the sale has been something remarkable.

Any one who suffers with headache, dyspepsia, dizziness, sour stomach, speaks before the eyes, or any liver trouble, should take advantage of this opportunity, for Dr. Howard's specific will cure all these troubles. But if by chance it should not, W. W. Keyler will return your money. The specific is very pleasant to take, coming in the form of small granules, and there are sixty doses in every package. It is especially convenient when traveling, and no one should start on a journey without a bottle of this reliable medicine.—Advt.

Library Notes.

A subject of national interest at the present time is the regulation of railroad rates by the federal government. A bill with this end in view has been passed by the House of Representatives, and is now before the Senate. Much has been written from various standpoints, and a shelf full of interesting books and magazine articles on the subject invites your attention at the library. Special attention is called to the books by Noyes, Cowles and Haines. Col. Haines was intimately acquainted with railway operations, being for many years an official in direct charge. In regard to what he has to say about "Restrictive Railway Legislation" we quote from Engineering News—"The story of early rate-making, of the early and later passenger wars and freight wars, of the granger agitation and legislation, has nowhere been better told and told by no one in a better position to know authoritatively than of 'Holloway's'."

HERE IS OUR LIST OF BOOKS AND MAGAZINE ARTICLES RELATING TO RAILROAD RATES.

Adams, Legal supervision of the transportation tax. North American review, 179: 271.

Musical Instruction.
Miss Grace Willocks will resume instruction on the piano September 11th. Residence and studio, 87 Orchard street. Arrangements can be made now.—Advt.

In homes where coal still reigns as king
The smoke and soot don't do a thing
But to wash day troubles add
And make the housewife woe and sad.

IN THE LAUNDRY

On wash day a coal range often seems totally depraved. It won't burn and the clothes won't boil. Finally when things are ready to hang out, it smokes and they have to be re-washed. No such troubles with a gas range! It burns when you light it. With one washing is made easy. It is ready at the turn of the wrist. Today and every day is gas range day. Get one now and make your work easy. Prices \$9.50 to \$15.00. \$2.00 down; \$2.00 a month. Connections free.
